THEREFORE™ SMART CAPTURE IS AN OUT OF THE BOX AI-BASED CAPTURE SOLUTION WITH TWO-WAY INTEGRATION WITH XERO TO STREAMLINE YOUR AP PROCESS

ENHANCE XERO PERFORMANCE

- Make more out of your Xero environment with an AI invoice capture and digital AP workflow

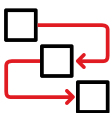

SAVE TIME AND MONEY

- Removes the need to manually key in invoice information
- Allows employees to spend time on more productive and profitable tasks
- Reduces bottlenecks in your AP process

IMPROVE ACCURACY

- Reduce data keying errors and eliminate the potential for costly errors

ENHANCE VISIBILITY

- Manage cashflow
- Ensure on-time payment
- Leverage early payment discounts

EASY AUDITING AND COMPLIANCE

- Keep a digital record of all approvals to comply with auditing requirements

Capture

- Therefore™ captures invoices from your MFD, Scanner, the Cloud – or automatically from your email inbox.

Extract & Verify

- Smart Capture OCR (Optical Character Recognition) extracts the invoice data and...
- uses Confidence Levels to indicate if the data requires human user intervention for checking
- Users check the data and if required amendments require nothing more than a mouse click or a few keystrokes
- The AI then automatically learns the revisions and applies them the next time it encounters that type of invoice

Automate Digital AP Process

- You can enter any GL coding rules required or forward to another business user for assignment
- Then Initiate the Digital Approval process
- Then either pay the invoice via Xero or Therefore™

Integration

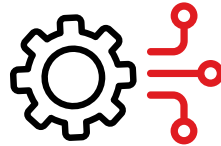

- Two-way integration automatically captures and shares account information, approvals, invoice data and payments between Therefore™ and Xero
- Integration means users can work out of Therefore™ or Xero with both systems being kept up to date
